

Working together for Peace

How your business can contribute

St Ethelburga's is one of the UK's most innovative peace-building charities, and is based in the heart of the City of London. We exist to build relationships across differences of all kinds - culture, class and religion - and to transform conflict into new relationships and peaceful communities. We do this through creating safe space for dialogue, and through offering training in dialogue methods and conflict management.

We are keen to engage the business world in what we do and demonstrate its relevance to the City.

The Benefits of partnering with us:

A partnership with us can:

- Improve employee engagement and well-being
- strengthen your diversity programme
- help you connect your brand with a message of peace
- send a powerful message to your staff and customers about your values.

We can create a tailor-made package that meets your specific CSR needs. We work in collaboration with our business partners and support them fully.

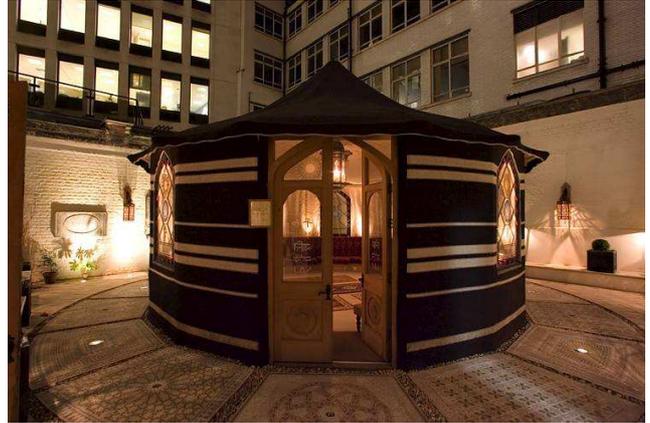

To arrange a chat about how your company can get involved, contact the Centre Director, Justine Huxley.
